
A Day In The Life

A new reality series that follows some of the most affluent professionals in their industry explaining the ups and downs of their day to day life. We can dive into their personal & professional lives to give a new perspective on their field.

Just give us the raw video material and answer a couple of questions on camera and we can create an excellent introspective of whatever you want to advertise. You will basically have a commercial in perpetuity that can earn you income. Our shows are monetized and are available on a PPV basis.

We have created a way to also create commercials using QR coding that will take the viewer wherever you like. Business funnel, Instagram, Facebook or Website. If you have a video commercial we can place this on as well..

We would love to discuss working together
